

# CS 294-165: Sketching Algorithms

TYLER ZHU

February 7, 2023

*"A good stock of examples, as large as possible, is indispensable for a thorough understanding of any concept, and when I want to learn something new, I make it my first job to build one."*

*– Paul Halmos.*

These are course notes for the Fall 2020 rendition of CS 294-165, Sketching Algorithms, taught by Professor Jelani Nelson. Credit for the template goes to Tyler Zhu.
